Willimantic, Conn.

June Bisantz, professor of arts at Eastern Connecticut State University, produced a banner that has been installed on the exterior of McLevy Hall in downtown Bridgeport.

Bisantz's banner was chosen to be the first in a series of three banners designed to celebrate Bridgeport's history, and calls attention to the renovation and reclamation of McLevy Hall. The design celebrates Charles H. Hubbell's invention of the pull chain light socket in Bridgeport in 1896.
